COORG—A District of Southern India under the jurisdiction of the Chief Commissioner of Mysore.

The Coorg country is formed by the summits and eastern declivities of the Western Ghats, which separate it on the south and west from the wady tracts of North Malabar (Wynaul) and South Canara (Tulu); in the north and east it merges into the tableland of Mysore with the only partially natural boundary of the rivers Kundrathári, Hemavati, and Kávéri. Its greatest length from north to south, from the river Hemavati to the Brahmagiris, extends over sixty, and its greatest width from west to east, from Sâmpaji to Fraserpet, about forty English miles. Geographically speaking, the whole country lies between N. Lat. 11° 53' and 12° 50', and E. Long. 75° 25' and 76° 14'. Before the annexation of Coorg by the English, the limits of this little kingdom extended over a larger tract, and included the two talooks of Canara, Amrasulga and Puttur, comprising an area of about 580 square miles, which, at the request of the inhabitants, were separated from Coorg, and added to the Collectorate of South Canara. In the absence of an accurate survey, the area of Coorg has been estimated at 2,000 square miles. Population, according to the census taken on the 14th November 1871, is 1,68,312 inhabitants.

HUBBUCK'S PATENT WHITE ZINC PAINT.

The most durable and beautiful Paint known, is cheaper than White Lead, and is proved to be superior for all purposes than the Pernicious Lead Paint, and equally adapted for all climates.

Its whiteness is unaffected by bilge water, boiling sugar, or noxious gases.

It is free from any poisonous ingredient, and suited in all respects to the use of the Painter.

ADULTERATIONS.

Several Paint Grinders have been selling Zinc Paint adulterated with Sulphate of Barytes, some even to the extent of thirty per cent. No workman can produce good work with such material. Those who have once used Hubbuck's Patent Zinc Paint will never willingly use any other Paint for their best work.

To prevent the prejudice which the inferior article must produce, each cask of pure White Zinc Paint is stamped,

"HUBBUCK, LONDON, PATENT."

Inferior Zinc Paint, so marked, having been sold in Foreign Markets, the Patentees offer a reward of FIFTY POUNDS for information which shall lead to the conviction in an English or Colonial Court of those who have pirated their mark. It is to be observed that grinders, exporters, and dealers are all liable for its sale.

THE HEALTH OF OUR HOMES.--"Hubbuck's Patent White Zinc Paint is entirely free from any poisonous or pernicious property. Furniture and buildings painted with it are at once disinfected. Paralysis and Painter's colic are avoided. Apartments may be immediately occupied without injury to the most delicate constitution. For public schools and all rooms occupied by children, there will now be no excuse for using poisonous Paints. Parents have remarked that their children, on returning from the country to newly painted houses, have suffered in health. The reason is evident; the breath extracts the insidious poison from Paint, and the lungs draw in the deadly vapor.

Among other tests to which it has been subjected has been that of painting the hold of a sugar vessel, which after a voyage to St. Kitts and back, was found, on being washed, to be as white as the first day the Paint was applied."—*John Bull*, September 14th, 1850.

THOMAS HUBBUCK & SON,

WHITE LEAD, OIL, AND VARNISH WORKS,

24, LIME STREET, LONDON, E.C.

HUBBUCK'S ANTI-CORROSIVE PAINTS

Are very durable, and the most valuable protection to Iron Roofs, Bridges, Piers, Ships, and Buildings, exposed to stormy weather and scorching sun; they soon become extremely hard, and do not blister.

They are made of Stone, Slate, Copper, White, Blue, Green, or any other Color that is desired.

HUBBUCK'S ANTI-OXIDATION COMPOSITION

For Coating Iron and Wood Ship's Bottoms; a Preservative against Fouling and Corrosion. This composition is ready for immediate use, and obviates the waste of carrying unmix'd Paints, Oils, Driers, &c. It is also applicable to all the purposes of other Paints.

HUBBUCK'S PALE BOILED OIL

Has less color than Raw Linseed Oil; is a quick, hard, and certain Drier for White and Light-Colored Paints.

Paints and Oils properly packed for exportation.
